

Vintage at Hamilton — Board Working Meeting

Keith's Meeting Checklist — July 7, 2026, 6:00 PM

Companion docs: Committee Charters Proposal · REQUIREMENTS.md (portal ticketing)

Before the meeting starts

- ☐ **Meeting status check.** This is noticed as a “working meeting.” If any binding votes happen tonight (charter adoption, appointments, spending), it must be an open meeting with 7 days’ posted notice (N.J.A.C. 5:26-8.12). If not properly noticed: discuss tonight, vote at the noticed open meeting.
- ☐ **ARC clock check (do this first).** Get the submission dates for the Solar and Cell Dialer applications. Deemed approval at day 60 (Declaration §11.03) — count the days before anything else.
- ☐ Copies of the Committee Charters Proposal for all trustees.

1. Board Reorganization

- ☐ **Name the officers (main item).** Elect President, Vice President, Treasurer, and Secretary. Do this FIRST - the Finance charter anchors to the Treasurer, and Shared Spaces needs a named Board liaison, so charter adoption depends on tonight's officer slate.
- ☐ **Committee attendance at board meetings:** propose a standing committee-report slot at every board meeting (chairs attend or submit written report).
- ☐ **Annual schedule of meetings:** adopt and post the annual open-meeting schedule — a Radburn regulation requirement (N.J.A.C. 5:26-8.12), not just good practice.

2. Committee Membership Appointments (see Charters Proposal)

- ☐ **KICK-OFF — managing agent’s “Guidelines” vs. our charters.** Their document confirms the gap. Talking points:
 - ☐ Recycled template — assigns oversight of “Tennis Courts and Playgrounds” we don’t have.
 - ☐ Omits both Bylaws-mandated committees: Judiciary (Art. XV / ADR compliance) and Transition (Art. XVI).
 - ☐ Architectural section never mentions the 60-day deemed-approval clock (§11.03) — tonight’s Solar and Cell Dialer items show why that matters.
 - ☐ Routes committee proposals through the managing agent to the Board — inverts the client relationship.
 - ☐ Finance: no records access, no audit oversight (Bylaws Art. VIII), no reserve-law compliance, no internal controls.
 - ☐ Their doc charters a Landscaping committee that DOES NOT EXIST - recommend folding its scope (contractor walk-throughs, planting plans, irrigation) into the Shared Spaces Committee rather than standing up another body.
 - ☐ Worth salvaging: their common-asset inventory (streets, retaining walls, basins, lamp posts, mailboxes) → Shared Spaces scope; biannual landscaping walk-throughs → Shared Spaces practice.
- ☐ **Golden source:** adopt our charters by resolution as the Committee Handbook — companion to the Blue Book, published on the portal; codify into the Bylaws later via the amendment process (board notice + rejection-ballot route; recorded with the county).
- ☐ **ARC charter:** now included in the proposal (Section 4) — anchors the 60-day clock, written acknowledgments, and per-property records.
- ☐ **Finance charter:** adopt; Treasurer as chair; pass companion resolution directing the managing agent to deliver the monthly reporting package — we are the client.

- ☐ **Shared Spaces charter:** adopt (new committee); name the Board liaison.
- ☐ **Judiciary Committee:** establish per Bylaws Art. XV — compliance requirement (ADR must be available; precondition to any fines). 3–5 members, no sitting trustees.
- ☐ **Transition Committee:** do NOT appoint — Bylaws Art. XVI requires 3 resident owners elected by the owners. Action tonight: confirm transition status with counsel and schedule the owner election.
- ☐ **Appoint members** to Finance (3–5) and Shared Spaces (3–7); collect volunteer names for Judiciary.
- ☐ **Annual audit:** ask managing agent for the status/engagement letter of the CPA audit required by Bylaws Art. VIII.

3. Clubhouse Renovations (Expansion · Gym relocation · Storage building)

- ☐ Scope, quotes, and funding source (reserves vs. special assessment) — any spending vote must be at a noticed open meeting.
- ☐ Impact on the capital reserve study / 30-year funding plan (P.L.2023 c.214) — new assets change the plan.
- ☐ If Shared Spaces is chartered tonight, assign scoping and cost estimates to it as its first task.

4. Old Business

- ☐ **SOLAR (ARC):** check days elapsed. NJ law (N.J.S.A. 45:22A-48.2) bars prohibiting rooftop solar on owner-maintained roofs — only reasonable siting/placement conditions allowed. Decide approve / approve-with-conditions before day 60; deliver written decision.
- ☐ **CELL DIALER (ARC):** check days elapsed. Decide and deliver written decision before day 60, or it is deemed approved by §11.03.
 - ☐ For both: record decision date + written response in the ARC file (acknowledgment trail).
- ☐ **Pergola:** status, owner, next step.
- ☐ **Wood-burning firepit:** status — confirm insurance carrier position and fire-code compliance before approving.
- ☐ **Lawn fungus:** status — log as a landscaping vendor performance issue (evidence for SLA review below).
- ☐ **Pool / spa controls:** status, owner, next step.

5. New Business

- ☐ **Board Powers and Duties:** review page 2 handout; align with Bylaws Art. VIII officer duties (Treasurer's audit/budget duties noted above).
- ☐ **Vendor SLA review (added):** inventory current contract SLAs vs. Blue Book obligations (snow at 2 inches, ice at 1/4 inch, declarant-installed lawn maintenance); request SLA performance reporting from the managing agent; baseline for the portal ticketing system and future RFPs.
- ☐ **Board meeting process (added):** adopt the open-meeting rhythm: 7-day posted notice with agenda, minutes available before next open meeting, closed sessions only for the four permitted topics, no binding votes in working sessions.
- ☐ **Community portal ticketing initiative:** brief the board - requirements document complete; transparency dashboards + ARC 60-day clock automation are the headline features.

Wrap-up

- ☐ Every action has an owner and a date; capture in minutes.
- ☐ Confirm date of next meeting (and that it's on the posted schedule).
- ☐ Charters: if tonight can't vote, confirm which noticed open meeting adopts them.
